Policy: 303.01 Illness & Injury Prevention Program

11/2023

Page 1 of 8

RESPONSIBILITIES

1. Fire Chief - The Fire Chief is responsible for overseeing the IIPP is implemented. Duties include, but are not limited to:
 - a. Ensuring all Fire Captains actively support the IIPP.
 - b. Providing the funding necessary to maintain an effective and compliant safety program.
2. Fire Captains and/or Company Officers - Fire Captains and/or Company Officers have the responsibility of providing a safe place to work including facilities, equipment, standards and procedures, adequate supervision and recognition for a job done properly. They are responsible for training all of their employees to perform their jobs properly and safely. They teach, demonstrate, observe, and enforce compliance with established safety standards.
3. IIPP Administrator - The IIPP Administrator has the responsibility for the implementation, maintenance, and update of the IIPP.
4. Employees - Employees have the responsibility of performing their tasks properly and safely. They are to assure themselves they know how to do the job properly, and ask for additional training or assistance when they feel there is a gap in their ability, knowledge, or training. They should never undertake any task, job, or operation unless they are able to perform it safely.

COMPLIANCE

1. Management - Management is responsible for ensuring organizational safety and health policies are clearly communicated and understood by employees. Fire Captains and/or Company Officers are expected to enforce the rules fairly and uniformly.
2. Employee - All employees are responsible for using safe work practices, for following directives, policies and procedures, and for assisting in maintaining a safe work environment.
3. Performance Evaluations
 - a. As part of the Fire Captains and/or Company Officers regular performance evaluations, they are evaluated on what they have done to ensure a safe workplace for their respective employees. They are also evaluated on their positive or negative loss results.

POLICY MANUAL

VOLUME 3

Policy: 303.01 Illness & Injury Prevention Program

11/2023

Page 1 of 8

- b. As part of employee regular performance reviews, they are evaluated on their compliance with safe work practices.
- 4. Recognition - Any employee of the Calimesa Fire Department who make a significant contribution to the maintenance of a safe workplace, as determined by their superiors, receive written acknowledgment maintained in their personnel files.
- 5. Employee Training - Employees who are unaware of correct safety and health procedures are trained or retrained.
- 6. Employee Correction
 - a. Employees who fail to follow safe work practices and/or procedures, or who violate organizational rules or directives, are subject to disciplinary action, up to and including termination in accordance with the organization's personnel-related policies and procedures.
 - b. Managers and supervisor's correct safety violations in a manner considered appropriate by organizational management.
 - c. For any violations of the IIPP program, all employees will be subject to the Calimesa Fire Departments progressive discipline process (in accordance with the Firefighter Bill-of Rights.
 - d. Notwithstanding the above, the organization reserves the right to correct in any fashion it deems appropriate, including the right to terminate immediately an employee for a safety violation.

COMMUNICATION

- 1. Two-Way Communication - Management recognizes open, two-way communication between management and staff on health and safety issues is essential to an injury- free, productive workplace.
- 2. Calimesa Fire's System of Communication - The following system of communication is designed to facilitate a continuous flow of safety and health information between management and staff in a form readily understandable.
 - a. An orientation program is given to all new employees and includes a review of the IIPP and a discussion of policies and procedures employees are expected to follow. This program is documented on the New Employee Safety Orientation Checklist.
 - b. The organization has safety meetings where safety is freely and openly discussed by all present. Such meetings are held monthly and all employees

CALIMESA FIRE DEPARTMENT

POLICY MANUAL

VOLUME 2

Policy: 303.01 Illness & Injury Prevention Program

01/2018

Page 4 of 8

are expected to attend and are encouraged to participate in discussion. All such meetings are documented on the Employee Meeting & Training Report Form.

- c. From time to time, written safety notifications are included with paychecks or are posted on organization bulletin boards.
- d. Other methods of communicating pertinent health and safety information are used as they are identified.

3. Safety Suggestions and Hazard Reporting

- a. All employees are encouraged to inform their supervisors, or other management personnel of any matter which they perceive to be a workplace hazard, or a potential workplace hazard. They are also encouraged to report suggestions for safety improvement.
- b. This reporting can be done orally or preferably in writing on the Identified Problem Report Form. If done in writing, the notification may be given directly to the supervisor, the IIPP Administrator or other management personnel, or placed in a suggestion box.
- c. If an employee wishes to report anonymously, a hazard, safety suggestion, or other safety problem he or she can complete an Identified Problem Report Form, not filling in their name.
- d. No employee shall be retaliated against for reporting hazards or potential hazards, or for making suggestions related to safety.
- e. Management reviews all suggestions and hazard reports.
- f. If employees provide their names in regard to the notification, they are informed of what is being done - within 5 working days of receipt.

HAZARD IDENTIFICATION & EVALUATION

- 1. Inspection of the workplace is our primary tool used to identify unsafe conditions and practices. While we encourage all employees to continuously identify and correct hazards and poor safety practices, certain situations require formal evaluation and documentation.
- 2. Safety Inspections - Internal safety inspections are conducted on a monthly basis for all shop and maintenance facilities. Safety inspections are conducted for all office areas at least annually. Hazards found are corrected on the spot or recommendations are submitted for future corrections. Inspections are documented on the Safety Inspection Form/Action Form.
- 3. Additional Inspections - Inspections are also conducted in accordance with Cal-OSHA requirements.
 - a. Whenever new substances, processes, procedures or equipment present a new safety or health hazard.
 - b. Whenever management/supervision become aware of a new or previously unrecognized hazard, either independently or by receipt of information from an employee.

ILLNESS AND INJURY INVESTIGATION

1. Investigation - All accidents resulting in injury or property damage, however slight, including near-hits, are investigated to determine the primary and contributing causes within seven working days of the initial report. This information is documented on the Investigation Report and analyzed to assist in obtaining corrective actions to prevent similar accidents from occurring in the future. The responsibility to see this investigation is performed rests with the IIPP Administrator.
2. Reporting - All facts, findings, and recommendations are documented on an accident investigation report. Management reviews accident investigation reports with a view towards determining adequacy of corrective action.

CORRECTION OF HAZARDS

When a hazard exists, it is corrected on a timely basis based on the severity of the hazard. If imminent danger exists to any employees, management and supervision remove these employees from the danger at once, and personnel who are provided with the necessary safeguards correct the hazard. Documentation of hazard corrections is completed on at least one of the following forms:

1. Identified Problem Report Form
2. Investigation Report Form
3. Safety Inspection Form/Action Plan

TRAINING

1. Orientation - New Employees
 - a. The Supervisory staff will conduct the initial orientation on general safety within the first two days the new employee is on the job.
 - b. The orientation is documented on the New Employee Safety Orientation Checklist.
 - c. All employees are provided with a copy of the IIPP and sign the Acknowledgment of Receipt of the Injury & Illness Prevention Program (IIPP).
 - d. All new hires are also given a copy of the organization's General Code of Safe Practices, and sign the Acknowledgment of Receipt of the General Code of Safe Practices.
2. Initial On-The-Job Training
 - a. When an employee first starts to work, a manager/supervisor trains the employee in all aspects of safety for the purpose of educating the new employee on the hazards of the work environment and the required safety procedures to mitigate those hazards.

01/2018

Page 6 of 8

- b. The manager/supervisor conducts this training and documents it on the Employee Meeting & Training Report Form.
- 3. Specific Organization-Wide Training
 - a. Disaster Preparedness - This training includes the organization's disaster preparation structure and how the employee fits into the structure, i.e., what the employee is to do under specific circumstances, such as fire, earthquake, medical emergency, and bomb threat.
 - b. First Aid, CPR, and Blood borne Pathogen Training - Designated employees receive first aid, CPR, and blood borne pathogen training in accordance with the American Red Cross and/or American Heart Association requirements.
 - c. Defensive Driver Training - All employees who may drive on organization business receive defensive driver training not less than every three years. Driving on organization business includes driving organization vehicles as well as personal vehicles.
 - d. Ergonomics - All employees receive ergonomic training for their specific jobs. As a minimum, each employee receives training on proper lifting techniques and, if necessary, computer workstation design.
- 4. Retraining - Reasons for retraining include change of job assignment, change of operations or materials, observation of poor work habits, or update of training methods. Managers, supervisors, and the IIPP Administrator perform retraining.
 - a. When an existing employee changes job functions.
 - b. On at least an annual basis as a refresher program.
 - c. Such training includes general workplace safety, job-specific hazards, and/or hazardous materials, as applicable.
 - d. All retraining is documented on the New Employee Meeting & Training Report Form.
- 5. Specialized Training - Supervisors are trained in their responsibilities for the safety and health of their employees. Such training includes both safety management and technical subjects.
 - a. Supervisors are trained in the hazards and risks faced by the employees under their immediate direction.
 - b. Managers, supervisors and the IIPP Administrator.
 - i. Determine safety-training needs
 - ii. Implement new training programs.
 - iii. Evaluate the effectiveness of these programs.
 - c. In addition, training is provided whenever.
 - i. New substances, processes, procedures or equipment pose a new hazard and there is a lack of skill or knowledge to deal with the situation.

- ii. Management, supervision, the IIPP Administrator become aware of a previously unrecognized hazard and there is a lack of skill or knowledge to deal with the hazard.

Recordkeeping Summary

1. In coordination with other management, the IIPP Administrator is responsible for maintaining all documentation relating to the implementation of the IIPP.
2. For the purpose of displaying a tracking history of occupational safety and health programs and activities, all documents are maintained for a minimum of one year plus the current year, unless otherwise stated.
3. For example, at the end of each year, the prior year's documents are removed from the files. During the next year, current year documents are maintained along with the just-past year's documents.
4. Specific records are maintained for each of the topics within the IIPP to include, but not be limited to.
 - a. Employee Recognition and Correction
 - b. Safety Meetings and Other Safety Communication
 - i. Form – Employee Meeting & Training Report Form
 - c. Safety Suggestions and Hazard Reporting
 - i. Form – Identified Problem Report Form
 - d. Hazard Identification and Correction
 - i. Form – Safety Inspection Form/Action Plan
 - e. Occupational Injury & Illness Investigations
 - i. Form – Investigation Report
 - f. Safety Meetings and Training
 - i. Form – New Employee Safety Orientation Checklist – for each individual employee; filed in personnel file
 - ii. Form – Employee Meeting & Training Report Form – for each meeting and/or training session
 - iii. Form – Record of Training Form – record of all training received by each employee
 - g. Receipt of IIPP and GCSP
 - i. Form – Acknowledgement of Receipt of the Injury & Illness Prevention
 - ii. Form – Acknowledgement of Receipt of the General Code of Safe Practices

Policy: 304.01 Liability Loss Control Program

01/2018

Page 1 of 26

PURPOSE

The purpose of the Liability Loss Control Program policy is to meet the Cal-OSHA requirement of liability loss control and to have a program in place to limit the city liability.

NEW EMPLOYEE LIABILITY LOSS CONTROL PROGRAM ORIENTATION

Purpose of this Form

1. All new employees receive general liability loss control program orientation training. All such training is documented on this form.
2. This completed form is filed in each new employee's personnel file.
3. Both the person who conducts the orientation and the employee sign and date the orientation training has been completed.
4. Instructor: Review the Organization's Liability Loss Control Program (LLCP) with each new employee. Ensure each person understands why the LLCP exists and what measures the employee can take to assist the Organization in preventing liability losses to include injuries, property damage and vehicle accidents.
