POLICY MANUAL
VOLUME 5**

Policy: 501.06 Incident Infection Control

11/2023

3 of 3

- c. A P-100 mask should be worn during any **high-risk procedure or high-risk patient**.
 - d. When feasible, first responders should mask up patients with a simple face mask when they present with symptoms of a respiratory-borne illness, as long as it will not interfere with patient care.
- iii. Equipment and Decontamination
 - a. Disposable resuscitation equipment shall be utilized negating the need for unnecessary contact.
 - b. Reusable equipment shall be placed out of service until it can be disinfected to City of Calimesa Fire's guidelines.
 - c. Decontamination of equipment shall be done with a mixture of bleach and water (1:10).
 - d. Appropriate PPE must be worn prior to decontamination.
 - e. Appropriate self-decontamination after equipment decontamination is a must.

Exposure Reporting

- i. Personnel will immediately report any exposure to his/her Captain.
- ii. Captain or Company Officer will immediately report the incident to the on-duty Battalion Chief and EMS Coordinator.
- iii. Fire Chief will be updated of the incident.
- iv. Appropriate Workman's Compensation paperwork will be filled out and a City of Calimesa Fire Department exposure form.
- v. Personnel will be transported to the appropriate medical facility and seek evaluation.
- vi. Personnel shall provide the names and contact information of all their emergency contacts.
- vii. If the source patient has been transported to their appropriate medical facility, immediate contact of the receiving facility for advice on their procedures.
- viii. If the receiving facility is allowed to follow their HIV and HBV exposure procedures both source patient and personnel will be tested within 90 days.
- ix. The personnel will be provided counseling and evaluation of the reported exposure.
- x. Documents can be found in the City of Calimesa Fire Department's IIPP.

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5
Policy: 501.07 Hazardous Waste Disposal**

11/2023

1 of 2

Purpose

The purpose of this policy is to ensure all City of Calimesa personnel are following Cal OSHA (California Occupational Safety and Health Administration) and EPA (Environmental Protection Agency). This includes knowing how to properly handle and dispose of home and internal medical waste.

Policy

Types of medical waste:

Healthcare biohazardous waste: potentially infectious materials that may contain blood, body fluids or an unknown substance, biohazardous material, lancets and sharps that are used to deliver medications.

Home-generated biohazardous/sharps waste: medical waste such as needles, potentially infectious materials that contain blood, bodily fluids or an unknown substance, biohazardous materials, lancets and sharps that are used to deliver medications. They must originate from a household, including a multifamily residence or household.

- a. **City of Calimesa Fire will not accept home-generated biohazardous/sharps waste or home-generated pharmaceutical waste.**
- b. **City of Calimesa Fire will direct any person looking to dispose of home-generated biohazardous/sharps or home-generated pharmaceutical waste to the correct permitted facility and times.**
- c. **City of Calimesa is not permitted by the county to accept home-generated biohazard/sharps waste or pharmaceutical waste.**
- d. **It is in violation of REMSA regulations and OSHA law to accept any form of biohazardous/sharps waste or home-generated pharmaceutical waste with a permit.**

Examples of medical waste include:

- a. Medical sharps, such as IV needles, hypodermic needles, lancets and syringes.
- b. Disposable masks, gloves, gowns and cloths.
- c. Used bandages and other dressings that are saturated with blood, bodily fluids or an unknown substance.
- d. Any medical equipment that has been compromised by blood, bodily fluids or an unknown substance and requires decontamination.

Medical waste disposal and storage:

All healthcare biohazardous waste from an incident must be placed in a red bag labeled with the words "Biohazardous Waste" or with the international biohazardous waste symbol and the word "Biohazard".

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5**

Policy: 501.07 Hazardous Waste

11/2023

2 of 2

All healthcare sharps waste must be placed into a red sharps container that is rigid, puncture-resistant, leak-resistant when sealed and resistant to reopen when sealed.

On scene disposal will require the biohazardous waste disposal red bag to either be turned over to medical transport (AMR) or returned to the station and prepared for disposal at AMR headquarters (Hemet).

On scene sharps waste must be placed either in a “sharps shuttle” or approved red rigid container.

- a. Full “sharps shuttle” must be emptied into an approved red rigid container that is puncture-resistant, leak-resistant and difficult to reopen. (Gloves and goggles must be worn during transfer)
- b. Full red sharps containers must be closed, thoroughly taped, initialed and dated. (Gloves and goggles must be worn during securing sharps container)

All interim stored medical waste must be stored at 32 degrees Fahrenheit and in an area clearly marked

City of Calimesa Fire Department fire stations can only store less than 20 pounds of biohazardous medical waste.

All interim stored medical waste must be transported to a permitted medical waste facility (AMR Hemet) for disposal at either 30 days or 20 pounds of biohazardous medical waste is present. Biohazardous medical waste will be transported to Hemet by the EMS coordinator, Battalion Chief or an AMR representative.

Documentation and Reporting

Due to the extreme importance of utilizing the correctly marked containers and bags it is imperative that when PAR levels are low the EMS coordinator must be advised to reorder.

When there is a compromise in the above policy it must be reported to the shifts fire captain and then EMS coordinator.

Compliance and Enforcement

Due to the multiple layers of compliance from CALOSHA to REMSA any deviation from the above policy will constitute disciplinary actions.

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5**

Policy: 501.08 Reporting Abuse

11/2023

1 of 2

Purpose

The purpose of this policy is to assist the City of Calimesa Fire Department personnel in understanding how to identify and report cases of possible adult, elder or child abuse. It will guide the personnel through the steps of the State of California and Riverside County policy.

Policy

It is the policy of the City of Calimesa Fire Department to report any suspected adult, elder or child abuse and complete the necessary paperwork within 24-36 hours after completion of an incident. All parties affiliated with City of Calimesa Fire Department are required by law since they are deemed mandatory reporters.

Types of Abuse

1. Emotional
2. Physical
3. Sexual, including exploitation
4. Neglect or abandonment
5. Abduction
6. Treatment resulting in mental suffering

Who is a mandated reporter

1. A firefighter, except for volunteer firefighters
2. An emergency medical technician I or II, paramedic, or other person certified pursuant to Division 2.5 (commencing with Section 1797) of the Health and Safety Code.

When must a mandated reporter required to submit a report?

“A mandated reporter shall make a report whenever the mandated reporter, in the mandated reporter’s professional capacity or within the scope of the mandated reporter’s employment, has knowledge of or observes an adult, elder or child whom the mandated reporter knows, or reasonably suspects has been the victim of abuse or neglect.”

Reasonable suspicion means that it is objectively reasonable for a person to entertain a suspicion, based upon facts that could cause a reasonable person can act upon his/her training and experience, to suspect abuse.

Reasonable suspicion does not require certainty that abuse, or neglect has occurred, nor does it require a specific medical indication of abuse or neglect.

Reporting

1. Notify your commanding officer of your suspicions
2. Notify on duty Battalion Chief and EMS Coordinator
3. Upon returning to the station go to the Suspected Adult/Elder Abuse Reporting link:

POLICY MANUAL
VOLUME 5**

Policy: 501.09 Safe Haven

11/2023

1 of 2

Purpose

The purpose of this policy is to ensure that the City of Calimesa Fire Department personnel are aware of the Safe Haven or Safe Surrender Baby Law and how it applies to the fire department. The policy will outline how it works, whom to notify and what to report. This policy was developed to prevent newborn infants from being abandoned, resulting in serious injury or death. (California Health and Safety Code, section 1255.7)

Policy

Safe Haven law provides immunity from criminal prosecution to mothers and/or persons in lawful custody of a newborn infant less than seventy-two (72) hours old, when an infant is surrendered to a designated safe-surrender site. The following is an outline for City of Calimesa Fire Department personnel to accept a surrendered infant.

How Does it Work

A distressed parent or person with lawful custody who is unable or unwilling to care for an infant can legally, confidentially and safely surrender their baby within three days of birth. All that is required is that the baby be brought to any designated fire station or emergency room. The City of Calimesa Fire personnel will give you and the baby matching ID bracelets. This will help you reconnect with the baby if you change your mind. The parent or person with lawful custody will be provided with an optional medical questionnaire. This information can help keep the baby safe and healthy. The parent or person with lawful custody are free to go – there will be no other requirements.

What Happens if the Parent Changes Their Mind?

A parent or person with lawful custody has 14 days to change their mind. They should bring their copy of the coded bracelet back to the safe surrender site or call 1-877-BABYSAF (1-800-222-9723) and request to regain custody.

Procedure to Accept a Safe Surrender

1. Welcome the parent or person surrendering the infant.
2. Do not be judgmental (this is an emotional and difficult time for the person).
3. Accept the infant, even if it appears older than 72 hours.
4. **Locate and open the Safe Surrender Kit.** Place the coded, confidential ankle bracelet on the infant and provide, or make a good faith effort to provide, the matching bracelet to the surrendering person. Inform the surrendering person that she or he has fourteen (14) days to reclaim the baby and that the bracelet will help them reconnect with the baby in case they change their mind and wish to reclaim.
5. Provide, or make good faith effort to provide the surrendering person the medical questionnaire and the fact sheet. The questionnaire may be voluntarily filled out and returned at the time the child is surrendered or may be completed later and mailed in the

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL

Policy: 501.09 Safe Haven

11/2023

2 of 2

envelope provided for this purpose. For more information regarding the medical questionnaire, review the materials at www.babysafe.ca.gov.

6. Initiate medical evaluation of infant and notify Fire Captain, On duty Battalion Chief & EMS Coordinator.
7. Create an incident and have an ambulance respond for transport.
8. Fire personnel will accompany Ambulance personnel to the receiving facility to have continuity of care.
9. Emergency room personnel will assume custody of the surrendered infant and collect the Safe Surrender Kit envelope.
10. The receiving hospital will then notify Child Welfare and local law enforcement.

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5**

Policy: 501.10 Controlled Substance

11/2023

1 of 12

Purpose

The purpose of the Controlled Substance Accountability Policy is to establish the procedures for compliance with Riverside Emergency Medical Services Agency (REMSA), Controlled Substance Act and Title 22. The scope will detail how to order, track, receive, accountability, reverse order, storage, security, documentation and usage.

Policy

It is the policy of the City of Calimesa Fire Department ensure all the procedures are up to date and follow the Drug Enforcement Administration (DEA) and Riverside Emergency Medical Services Agency (REMSA) approved controlled substances for medical emergencies and that the availability of the medications comply with all applicable local, state, and federal regulations governing the supply, use and accountability of a controlled substance. (21 CFR 1300 and the DEA Controlled Substance Act and REMSA protocol 3302)

Controlled Substances

Approved DEA Schedule II controlled substances for paramedic staffed first response agencies and/or transport services include:

1. Fentanyl (Sublimaze)
2. Morphine Sulfate (Optional)

Approved DEA Schedule III-N controlled substances for paramedic staffed first response agencies and/or transport services include:

1. Ketamine (Ketalar)

Approved DEA schedule IV-controlled substances for paramedic staffed first response agencies and/or transport services include:

1. Diazepam (Valium)
2. Lorazepam (Ativan)
3. Midazolam (Versed)

Security Mechanisms and Procedures

Ordering and Order Tracking

City of Calimesa Fire Department will order controlled substances from an authorized drug wholesaler or pharmacy. Schedule II controlled substances require use of the DEA Form 222 or the Controlled Substance Ordering System (CSOS). These orders will be delivered to the agency or service's facility found at the single physical location and address noted on the DEA registrant's license for that agency or service. Each order must be tracked in a manner that documents the parties requesting, ordering, and receiving controlled substances.

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5**

Policy: 501.10 Controlled Substance

11/2023

2 of 12

1. City of Calimesa Fire Department Station 1, located at 906 Park Ave. Calimesa, Ca 92322 has been identified as an approved medication site/facility.
 - a. With acknowledgment of our medical director William Seth Dukes, MD and American Medical Response (AMR) Hemet.
2. City of Calimesa Fire Department Station 1 will be recognized as the Master Supply Storage facility.
3. The EMS Coordinator shall be responsible to maintain the Master Supply Storage at Fire Station 1.
4. The Medical Director or the EMS Coordinator will submit a correctly completed DEA 222 form for all schedule II-controlled substances to an approved department supplier when ordering controlled substances to maintain established par levels.
5. Schedule III and schedule IV-controlled substances will be ordered from an approved department supplier and do not need a DEA 222 form.
6. Each controlled substance will be tracked from order to shipping to receipt.
7. Controlled substances will remain in original manufacturer's containers, Food and Drug Administration (FDA) compliant labels remaining intact and unaltered, until the time of administration.

Receipt and Accountability

Controlled substances must be received at the agency or service's facility found at the single physical location and address noted on the DEA registrant's license for that agency or service. Personnel receiving controlled substances must be authorized by the DEA registrant and included on the agency or service's roster of personnel authorized to manage controlled substances. A witness, also included on the roster of personnel authorized to manage controlled substances, must participate in the receipt and documentation of the controlled substance(s).

1. Upon receipt of the controlled substance, from the approved department supplier, the EMS Coordinator shall inventory the controlled substance to ensure that the correct medication, concentration, and quantity was received and reflected on the DEA 222 form.
2. If the controlled substances come in and neither the Medical Director nor EMS Coordinator are present, to receive the order, place the unopened package in the Master Supply Storage and advise the EMS Coordinator and On-Duty Battalion Chief.
3. Accountability of any controlled substance will be done in a dual system format. The assigned on-duty firefighter/paramedic along with either the EMS Coordinator or the on-duty Battalion Chief will complete any addition or subtraction of a controlled substance.

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5
Policy: 501.10 Controlled Substance**

11/2023

3 of 12

Master Supply Storage, Security and Documentation

The master supply storage of controlled substances will be at the agency or service's facility found at the single physical location and address noted on the DEA registrant's license for that agency or service.

1. The City of Calimesa Fire Department Fire Station 1 will be the designated Master Supply Storage facility.

Master Supply Storage security measures will include:

1. Tamper evident containers
 - a. Controlled substance container(s) will have a padlock at one end and a numerical red tag at the other end.
2. Controlled substances will remain in original manufacturer's containers, Food and Drug Administration (FDA) compliant labels remaining intact and unaltered, until the time of administration.
3. Storage under double lock
 - a. Padlocked and numerically red tagged controlled substance container(s) will be secured in a monitored safe.
 - b. All REMSA approved firefighter/paramedics will be assigned a specific four-digit code to identify access into the Master Supply Storage.
 - c. EMS Coordinator and the Battalion Chief's will have biometric access into the Master Supply Storage.
 - d. All access attempts will be monitored via online software creating an audit trail of user and usage.
 - e. Master supply storage will be mounted in a vault which doors will be continuously locked until restock or accountability is needed.
4. Witnessed counting, no less than once (Ix) each month
 - a. CMS EMS-I — City of Calimesa Fire Department monthly inventory log
 - b. On-duty firefighter/paramedic and EMS Coordinator will conduct the monthly inventory compliance.
 - c. All discrepancies immediately notification Fire Chief, EMS Coordinator, and on duty Battalion Chief.
5. At the completion of each shift (every 48 hours) or when an on-duty firefighter/paramedic crew change occurs a controlled substance exchange is performed for the Master Supply Storage (safe).
 - a. With both incoming and off going firefighter/paramedic's present both parties will verify par levels and accountability of the controlled substance(s) by opening the Master Supply Storage (safe) and through the see through controlled substance(s)

**CALIMESA FIRE DEPARTMENT
POLICY MANUAL
VOLUME 5**

Policy: 501.10 Controlled Substance

11/2023

2 of 12

container visualize the medication, quantity of medication, integrity of the medication vial or ampule, and the expiration dates of the controlled substance. Both parties will then inspect the controlled substance container for alterations and inconsistencies, padlock continuity and that the numerical red tag matches CMS EMS-I.

- b. If there is a discrepancy on any level regarding the controlled substance(s) par levels, medication(s), quantity of medication, integrity of the medication vial or ampule, the expiration dates or information on CMS EMS 1 and/or CMS EMS 2 both incoming and off going firefighter/paramedics need to reconcile the discrepancy. If the discrepancy cannot be reconciled, immediately notify the on duty and off going captains, on-duty and off going Battalion Chiefs and the EMS Coordinator. The EMS Coordinator will complete and submit a DEA Form 106, if necessary, and advise the Medical Director within 24 hours. (Report of Theft or Loss of Controlled Substance(s)).
 - c. Both off-going and incoming will complete a narrative of the events.
 - d. If the oncoming firefighter/paramedic is dispatched to an incident before the controlled substance exchange can be completed, then the accountability will be completed as soon as possible and the off going firefighter/paramedic is released. Upon returning to the fire station and the off going firefighter/paramedic has left then the Duty Chief or EMS Coordinator may assist with the controlled substance exchange and documentation.
 - e. In the event the on-duty assigned firefighter/paramedic works two consecutive shifts (96 hours) on the same apparatus then the accountability must be done with appropriate forms (CMS EMS-I) filled out after 48 hours.
6. EMS Coordinator or Medical Director will conduct a monthly inventory reconciliation.
- a. Any inventory or reconciliation discrepancies shall immediately be brought to the attention of the Fire Chief, Medical Director, and EMS Coordinator. Form DEA 106, Report of theft or loss of a Controlled Substance, shall be completed and submitted within 24 hours (21CFR 1301.76).

Personnel handling and / or counting controlled substances at the master supply must be authorized by the DEA registrant and included on the agency or service's roster of personnel authorized to manage controlled substances. A witness, included on the roster of personnel authorized to count controlled substances, must also participate in each count and its documentation.

Master Supply Storage documentation will include:

- 1. The City of Calimesa Fire Department's roster(s) naming personnel authorized to:
 - a. Manage controlled substances
 - b. Count controlled substances
 - c. Administer controlled substances
